About the municipality

(http://chernoochene.com/wp-content/uploads/2011/03/chernoochene_obshtina.jpg) Chernoochene is one of the seven municipalities in Kardzhali region and has always occupied a significant place in the socio-economic appearance of the Eastern Rhodopes.

It is located on an area of 339 square kilometers. It is 240 km from the capital of Bulgaria Sofia and 100 km from the state borders with the Republic of Turkey and the Hellenic Republic. Chernoochene is bordered by the municipalities of Kardzhali, Mineralni Bani, Haskovo, Ardino, Prahle, Banli and Asenovgrad. The terrain of the municipality is crossed and has a pronounced mountain character.

In the municipality of Chernoochene today live about 16 500 people, who inhabit 50 settlements. Turks and Bulgarians form the ethnic composition of the region, with 95 percent of the population being representatives of the Turkish ethnicity.

The relative share of the working population and labour resources is relatively constant and represents 53.3 percent of the total population.

Chernoochene is the front door to the Eastern Rhodopes. From here pass some of the most important roads to the central part of the country and neighboring Greece.

The area has a rich millennial culture, as well as centuries-old traditions in the civilized coexistence of ethnicities and religions.

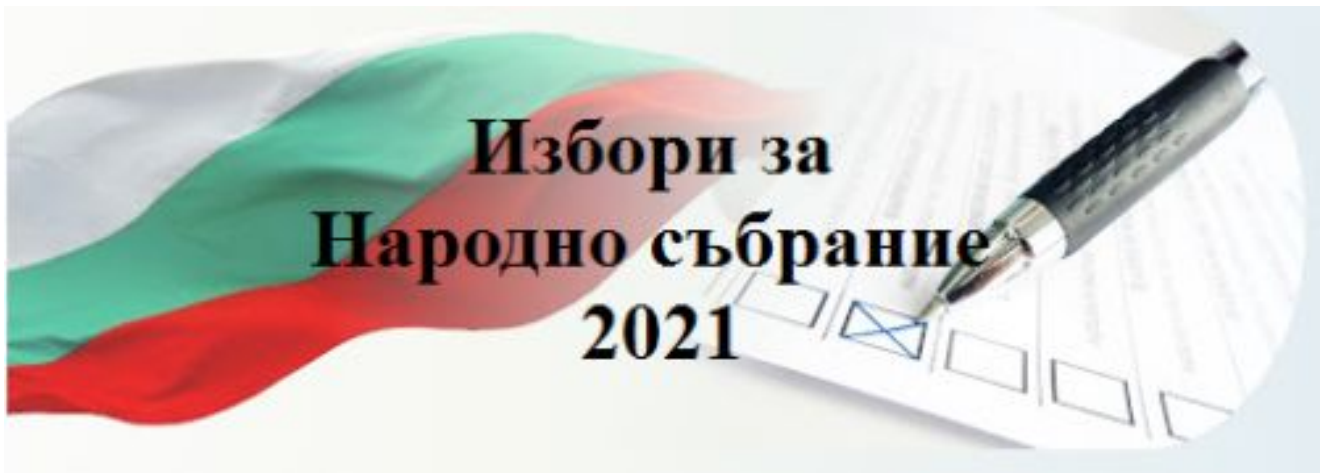

The region has a qualified labor resource, developed infrastructure and a material and technical base. They are a prerequisite for the favorable investment environment and the entry of Bulgarian and foreign capital.

The Municipality of Chernoochene has received funding under various European programs aimed at improving the attractiveness of the environment and making it a more pleasant place to live its inhabitants.
